MORE WAYS TO HELP

# Looking for more learning fun?

Visit my homeschool site  
where you'll find much, much more!

[www.1plus1plus1equals1.net](http://www.1plus1plus1equals1.net)

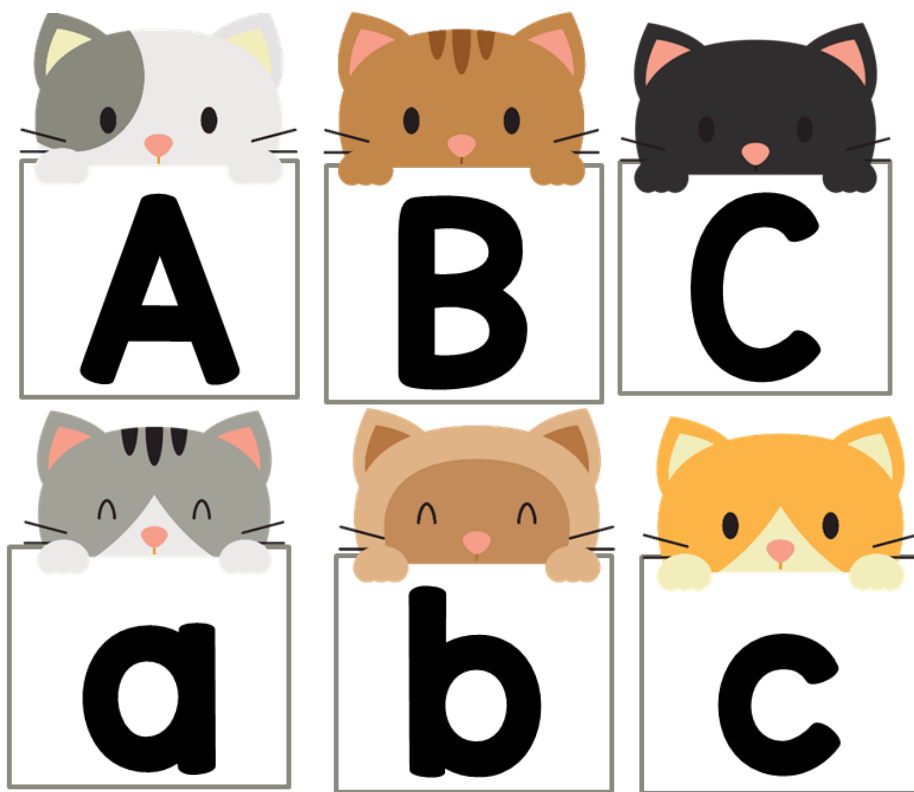

[Click here](#) to visit our search page where you can search by theme to find fun printables for your kids!

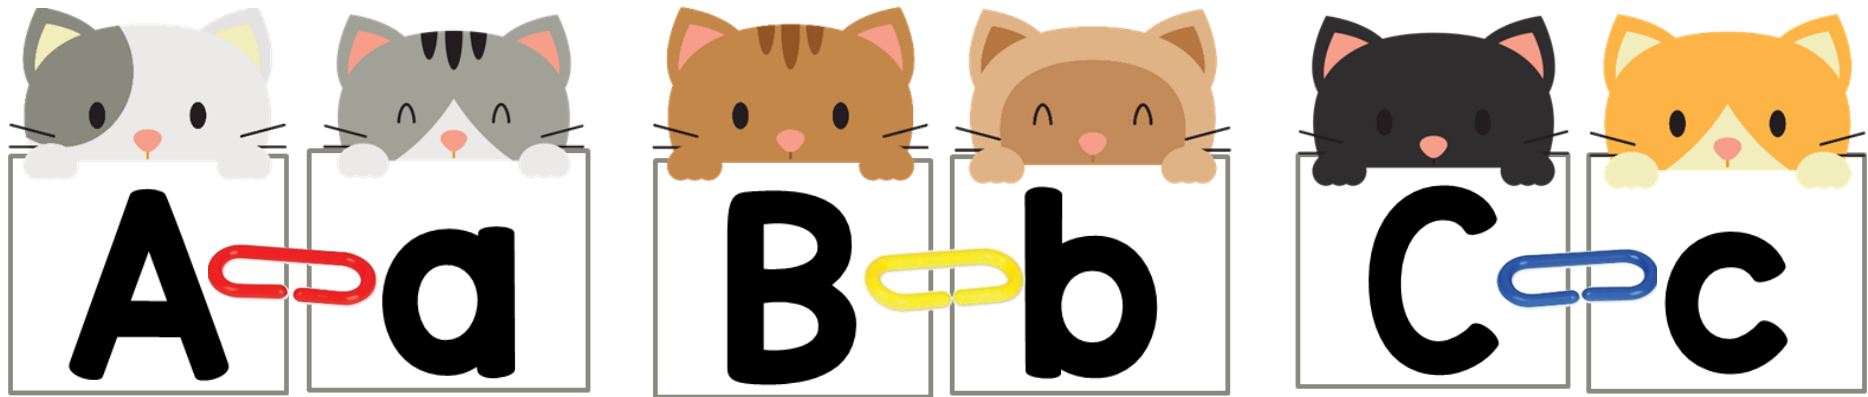

# Letter Identification & ABC Order

Print on cardstock and laminate. If your child is working on identifying letters, use these as a fun learning tool, working on ABC order? Put them all in order in a long line on the floor or table! If your kids love cats, these are a perfect way to make the alphabet fun!

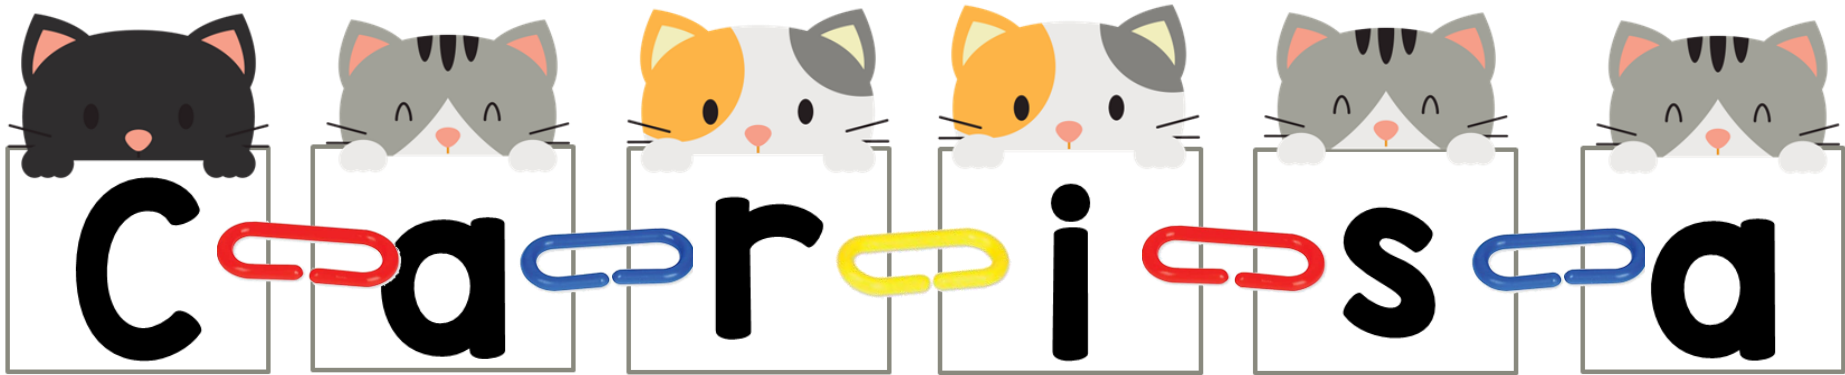

# Upper/Lowercase Matching

Print on cardstock and laminate. If you have [learning links](#), use those to have your student match upper and lowercase letters and link them together {punch holes in the letter cards if using this option}. If you don't have links, just lay the cards on a table or use a [pocket chart](#)!

# Build Your Name

Print on cardstock and laminate. If you have [learning links](#), use those to have your student find the letters in his/her name and link them together {punch holes in the letter cards if using this option}. If you don't have links, just lay the cards on a table or use a [pocket chart](#)!

If you need multiple copies of a certain letter, write the letters in on the blank extra cards, or print multiple copies of the pages you need and cut out the letter cards you need! Practice building last names too!
